IMPORTANT BUSINESS FOR NEXT MEETING:

- Bring your ideas on ways we could best put the profits from the Blue Water Ramble to use.
- We are going to discuss and set down more varied ride paces and rules for our club rides. It is particularly important for those who feel their riding needs have not been represented to attend and let us know what you would like. If we know each other's desires we can better serve the needs of all the club members and have more participation in club activities.
- Please sit down and note any suggestions, no matter how small, we can use for next years BWR while it is fresh in your mind. They will be reviewed by those who organized this years ride and submitted to the new ride leader for the 1984 BWR.
